

Author Guidelines

2026 Hot Interconnects TPC

Author Expectations

- Authors must submit their papers via EasyChair
 - Submission deadline - **May 20, 2026 (no extensions)**
 - Notification of acceptance - June 26, 2026
- Authors must follow [IEEE Reprints Policy](#) by adding the linked text to any preprints of the accepted work
- The conference can reject papers for inappropriate AI usage
 - See CFP and [IEEE AI Policy](#)
 - AI for spell-check and grammar is fine
- Please see the paper formats slide to better understand what submission type is right for you

Paper Formatting

- There are two paper formats, regular and hot topic
- Hot topic submissions
 - Up to 4 pages (including technical content and figures)
 - Submissions that are four pages or less will be presumed hot topic submissions
 - Should focus on novel/upcoming topics and how they differ from established state of practice
 - Allowed to have technical content that is more limited in scope than a regular submission
 - Must demonstrate the feasibility of the topic, but not necessarily explore its nuances in every situation or compare against every alternative.
- Regular submissions
 - Up to 10 pages (including technical content and figures) w/ up to 5 pages of appendices
 - Require more detailed background and evaluations to argue their technical contribution
 - The only format eligible to be invited contribute to the IEEE Micro special issue

Artificial Intelligence Usage

- HotI follows [IEEE's Guidelines for Artificial Intelligence \(AI\)-Generated Text](#)
- The conference can reject papers for inappropriate AI usage
 - See CFP and [IEEE AI Policy](#)
- Authors must disclose any AI-generated content in the acknowledgments, specifying the AI system used, the sections affected, and the extent of its contribution
- Routine use of AI for editing or grammar improvement does not require disclosure, though it is recommended
